**PROJECTS**

# HomeCraft

HomeCraft has become one of Sweden's most promising real estate management software solutions with a wide spectrum of functionalities. It is an easy to use communication tool for tenants, landlords and property handymen that keeps everybody in the loop and provides for full-scale reports on faulty objects in just a few clicks.

# Craftsmen

Craftsmen is an application that helps you find a handyman when home repairs are needed.

The app allows you to see all available handymen on a map, browse through their review ratings, and quickly schedule a repair session.

# allgood

Allgood is an Ecommerce charitable platform for the Canadian market. A project we are especially proud of because it has gone beyond a strictly business relationship. Allgood enables its users to sell second-hand items online and forward the proceeds to a charity of their choice.

# Our clients

# TESTIMONIALS

**Alexander Gabrielsson**

Co-Founder & CEO at homecraft

*"The technical infrastructure behind the product has been well-received so far, driven by JSguru's ability to anticipate the needs of end users. Using Trello to communicate, the firm's responsiveness, adherence to deadlines, and accuracy of price quotes have satisfied our expectations."*

**Andrea Brighenti**

CEO LetInvite

*"JSguru has finished the platform within two months. They have used a simple workflow with a dashboard that has made their work easily traceable. The vendor has also shown flexibility in fulfilling challenging requests while still respecting their deadlines."*

**Patrick Lawson**

CEO of Mobile Guardian

*"JSguru has been efficient and proactive. One of the group's key differentiators is how self-managing they are. They can take ownership not only of the code, but also of the time frame."*

**Nikola Maksimčuk**

Co-Founder of City Gecko

*"We collaborated previously with JSguru and this time again we knew they'd give us exactly what we needed. At JSguru they always looked at us not as a client, but as a partner."*
